Series 2000 Garage Doors

Superior Design, Engineering Excellence

Door Style Selector

The Hörmann Series 2000 garage doors are undeniably attractive in appearance. With a range of designs that comprises of single and double up-and-over doors in steel, timber and GRP. Hörmann offer a wide range of standard garage door sizes in

either canopy or retractable gear to fit to a timber frame. We recommend, however, that the Hörmann powder coated steel frame is used, as it makes a complete door set.

Steel Door Design 2103, Caxton // **NEW**
Steel garage doors can be supplied in a variety of colours from the RAL colour chart.

Steel Door Marquess Decograin "Golden Oak" // **NEW**
A selected range of door designs is available in the Decograin surface finishes "Golden Oak" and "Rosewood".

Timber Door Design 2119, Leicester // **NEW**
Timber infills exquisitely crafted for a lasting appeal.

GRP Door Design 2047, Bourton // **NEW**
Glass Reinforced Polyester, often referred to as fibreglass, is a tough and durable material.

Hörmann automatic up-and-over doors because they offer greater convenience and security

Further information on Hörmann operators for garage doors can be found in our specialist brochures or on our website at www.hoermann.com.

ProMatic // NEW

The inexpensive starter model as an introduction to the Hörmann premium quality, for a maximum of 10 door cycles (open/close) per day.

SupraMatic

The high-quality operator with an array of additional functions for a max. of 50 door cycles (open/close) per day.

You simply press the button on the hand transmitter and your garage door opens by remote control. The operator light switches on automatically at the same time and stays on until you have left your car. So you can drive into your garage without having to leave the comfort of your car, safe at night and protected in all weathers.
